

Yellowknife Community Science Plant Field Guide

Protocol:

- 1) Find a patch of flowers and measure out a 1m by 1m observation site
- 2) Observe pollinators entering site for 5 minutes
- 3) Only record a pollinator visit when it has landed on a flower inside your observation site
- 4) Pollinators can be counted twice if they land on a flower in your observation site, leave, and then re-enter your site and land on a flower
- 5) Have fun watching pollinators!

Plant	Photo ID
<p style="text-align: center;">Fireweed <i>Chamaenerion angustifolium</i></p>	 <p style="text-align: center;">(c) lipchanin – some rights reserved (CC BY-NC)</p>
<p style="text-align: center;">Prickly Wild Rose <i>Rosa acicularis</i></p>	 <p style="text-align: center;">(c) sydcannings – some rights reserved (CC BY-NC)</p>

Boreal Sweet Vetch
Hedysarum boreale

(c) Steve Ansell – some rights reserved (CC BY-NC)

Alpine Sweet Vetch
Hedysarum alpinum

(c) C Graydon – some rights reserved (CC BY-NC)

Showy Crazyweed
Oxytropis splendens

(c) stinglessbee – some rights reserved (CC BY-NC)

Shrubby Cinquefoil
Dasiphora fruticosa

(c) margot_mich – some rights reserved (CC BY-NC)

Coast Goldenrod
Solidago spathulata

(c) Damon Tighe – some rights reserved (CC BY-NC)

Northern Goldenrod
Solidago multiradiata

(c) jfree227 – some rights reserved (CC BY-NC)

Siberian Peashrub
Caragana arborescens

(c) Vit Lukas – some rights reserved (CC BY-NC)

Narrow Leaved Hawksbeard
Crepis tectorum

(c) Nikolay V Dorofeev – some rights reserved (CC BY-NC)

Common Dandelion
Taraxacum officinale

(c) stremblay21 – some rights reserved (CC BY-NC)

Common Yarrow
Achillea millefolium

(c) dgcurrywheel – some rights reserved (CC BY-NC)

Grayleaf Willow
Salix glauca

(c) sydcannings – some rights reserved (CC BY-NC)

Labrador Tea
Rhododendron groenlandicum

(c) klewis595 – some rights reserved (CC BY-NC)

Red Osier Dogwood
Cornus sericea

By Rod – no rights reserved (CC0)

White Sweet Clover
Melilotus albus

(c) Sarah Gregg – some rights reserved (CC BY-NC-SA)
